

WOOLLARD & HENRY VIB SYSTEMS SUPPORT

Art. Nr 2/2021

Woollard & Henry Ltd – is our trusted partner for the supply of spare parts and maintenance services for VIB systems.

Our engineers and technicians average over 25 years' experience with VIB equipment. This allows us to provide you with the required service support, spare parts and modernization of entire systems.

SPARE PARTS

All spare parts are in **OEM quality** and in stock. We will help you identify the required spare parts for the entire VIB system, including the control cabinets.

UPGRADE AND REBUILD OF CONTROL EQUIPMENT

Suppliers of steambox systems, such as VIB, used their own unique control software and hardware. Now after several years in operation, no service and spare parts are available. Woollard & Henry has developed **replacement kits based on Siemens technology** to replace these unique hardware parts, i.e.: MFC controller replacement, CKS-APIS replacement, LED Card Rack replacement.

SERVICE

Thanks to our experience, we can provide a **detailed service of VIB systems**. The system will be dis-assembled, fully inspected, cleaned and if required, needed parts replaced. During on-site service visit **we will have all the necessary spare parts**.

REBUILDS ON STEAMBOX AND WATERSPRAY SYSTEMS

Our service team is able to upgrade existing systems. Within the range of our works are: modifications/repairs of steam connections, inspections of nozzles/control valves, repairs of bodies. We will help you ensure **optimal system performance** in terms of production efficiency and quality.

WE INVITE YOU TO COOPERATION!
